

R.E.A.C.H New Storage Unit

02.26.2013

With the New Year come new opportunities and new chances to expand. Meaning, on February 24, 2013 the R.E.A.C.H Program has a new place to grow and call home, Garage Town USA at Ken Caryl. This storage facility is our new home and base of operations for gathering equipment for the R.E.A.C.H Program.

After 9 years at Stor-N-Lock, our international Rush Partners have grown significantly enabling the R.E.A.C.H Program to look for a larger facility in 2013. Stor-N-Lock has assisted the Rush Soccer organization since the beginning of the R.E.A.C.H initiative in 2004. This wouldn't be possible without the support of all the 'Rush Family' and domestic clubs, along with the backing of Garage Town USA owned and operated by Glenn McWilliams and Mike Ard.

Also, special thanks to all R.E.A.C.H Ambassadors and volunteers for their unconditional assistance with supporting the program. The new facility at Garage Town USA allows the R.E.A.C.H Program to store more equipment, be more organized, while having a better position to help our international partners acquire Rush equipment.

Rush Soccer is progressively expanding, with over 25 international partners, the need for a larger storage facility to house soccer equipment, is a great start for the New Year. However, with R.E.A.C.H. we continually need volunteers and people who share and support the passion for soccer and humanitarianism throughout the world. With that being said, the common effort that everyone has put in to making R.E.A.C.H what it is today has had a profound impact and will continue to promote the R.E.A.C.H statement: "Going Beyond All Boundaries and Exceeding All Expectations is the RUSH WAY."
