

One of the benefits that we have in being part of a larger, international soccer club is that our size is very attractive to many companies. As you may already realize, the more sponsorship dollars that we can bring in, the less we need to ask of you, the membership, in financially supporting our programs. These sponsorship dollars will allow us to purchase equipment, fund our programs, and employ the best possible coaching staff for your children without asking you to participate in annual door-to-door fundraising efforts.

The link below will take you to the survey that will ask you about your experiences with Rush Soccer, as well as questions about your household's shopping preferences. This second section will allow us to paint a better picture of our membership for potential local and national-level sponsors. Please know that your responses can not in any way be tracked back to you or your family. If you are uncomfortable in answering any question, you are not required to answer it, and may skip that question.

This survey will take approximately 15-20 minutes for you to complete. We know that we are asking quite a bit as your time is so precious to you and your families, however this survey is highly important to the future of our club and will not be repeated again for a number of years. Please complete the survey by Tuesday May 31st so that we can begin analyzing the results. This will allow us to quickly respond to your opinions regarding the club as well as put the consumer data into our sponsorship presentations. Please click on the link below to take the survey and thank you for your time.

2011 Rush Soccer Membership Survey
