

The winners of the U12 Juggling Competition have been crowned! Mika Makekau of Hawaii Rush walked away as top juggler with 4123! Outstanding job!

"I am so honored to be the best juggler in the contest and juggling is beneficial to my game so that I have more control on the ball," said Mika after the competition.

Jared's coach Andrew Kummer said this about his young Champion, "Jared is very much deserving of this recognition. He works hard at his game and it shows in his ability to handle the ball in tight spaces. Juggling has certainly proven to be a factor in his overall comfort on the ball."

Competition often brings out the best in players, even if they are not the winner. Below is a message from 2nd place finisher Mari Annest of the Colorado Rush to her coach after the competition:

"Hi Erik,

I know the juggling competition is over and i am sorry for that. I was really bummed out when i was 2nd in the Golden Touch because i thought i had it.

I am sorry, because i know i could have and should have kept going. When I saw that Mika (from Hawaii) had beaten me, I went outside, because I knew I could do better.

When I went out, I got 4463. I wish that I had kept going in the juggling competition, because I know that it would have helped our team.

Thanks

Mari"
